

**PHOEBUS**  
ENERGY

**The Power of Hybrid Heating is Here!**

# Challenges of the Energy Market

- **Cost Saving**
- **Reliability of the energy source**
- **Carbon emissions**

**Focusing on commercial hot water users like Hotels , Hospitals, Athletic centers, etc with addressable market of over 10B annually.**

# It's Time for the Hybrid Revolution!

- Proven energy savings of 40-70%
- Reduce emissions 80-90%
- Optimize energy efficiency
- Phoebe solution
  - Intelligent heat pump system
  - Remote and onsite monitor and controls
  - Integration into existing heating system
  - Web based adaptive hybrid software
